Loose Leaf Tea.

- CLASSIC ENGLISH TEA

The one that started it all. Our classic loose leaf English Breakfast. It's exactly how a real cup of tea should taste. A perfectly balanced, malty classic.

- DARJEELING

Once you've tried English Breakfast, you'll start wanting to try different black teas, and Darjeeling is the perfect next step. It's completely different - delicate and floral - one to slurp and savour.

- MOROCCAN MINT

Our take on the Moroccan Classic. A strong, robust gunpowder green tea, blended with super-minty peppermint leaves. Refreshing & lively, this will hit the spot every time.

- EARL GREY

A fragrant and citrusy tea to keep you refreshed all day. Ceylon black tea with bergamot oil, orange peel and calendula petals.

- ASSAM INDIAN BLACK TEA

A strong, traditional cup that's as bold in flavour as it is in colour. Our loose leaf Assam tea is the main part of our English Breakfast and the tea in our Chai. Punchy, nutty, malty and strong. There's a reason it's one of our best sellers.

- GREEN TEA

Put off by bitter green tea? Us too. Our loose leaf Green Tea made with rich Yunnan leaves is a subtle and savory blend. It's gentle, grassy & smooth.
